

# MAHLE Powertrain Control Systems

> Vehicle Controls Solutions  
Systems Engineering  
Functional Safety

## Control Systems

At MAHLE we developed our own engine controls and subsequently we developed a wide range of related control applications for hybrid vehicle controls, motor controls, thermal controls and battery management and we have these systems integrated and running in vehicles.

We are seeing big changes in the controls systems being developed for vehicles, the processes, the applications, functional safety and the wider interfacing and integration challenges. MAHLE has solutions for these challenges – from ASIL QM functional control developments to handling ASIL D hazards.

## Systems Engineering

Systems engineering is key to addressing the challenges from the proliferation of electronic controls across the vehicle, whether in new applications or replacement systems.

# MAHLE Powertrain Control Systems

## Benefits

- Our engineers have systems experience, demonstrated on numerous developments
  - › Review critical technologies & supplier options
  - › Iteratively assess & model system responses
  - › Carry out safety analysis
  - › Develop ASIL decompositions
  - › Allocate requirements to individual systems
  - › Specify systems & select suppliers
  - › Define working frameworks & partner agreements

>> Systems engineering architecture

## Controls Support

- Control system development
- Safety analysis
- Requirements management
- Model based software development
- Supplier co-ordination
- Software test engineering

>> MAHLE Powertrain demonstrator vehicles

>> MAHLE Flexible ECU (MFE)

## Systems Development Consultancy

- Project management
- System design & development
- Systems & safety architectures
- Systems integration
- Analysis & simulation
- Controls & safety
- In-house & partner solutions
- Off-the-shelf & bespoke

MAHLE ZG Transmissions  
Georg-Kollmannsberger-Str. 3  
85386  
Eching  
Germany  
Tel. +49 89 18 94 169-0

MAHLE Automotive Technologies  
No. 1299 Huan Cheng Bei Road  
Fengpu Industrial Park 201 401  
Shanghai, Fengxian District  
China
